

[10:02] HRbot: "Annual leave resets on Dec 31."
[10:03] dev_anna: wait, I saw doc says March??
[10:04] HRbot: maybe cached FAQ. Official HR_Policy_Summary.pdf = 31 Dec.
[10:05] HR_mel: add to shared drive "Policy_final_FINAL_use_this.pdf"

--- Later ---

[13:11] sysadmin: pipeline logs spam again
[13:12] hrbot: unrelated query?
[13:13] sysadmin: nvm just testing chatbot

--- random HR thread mixed in ---

[15:09] lina: harassment training link broken AGAIN (third time)
[15:10] mel: file name "AntiHarass_v3(edited2)(1).pdf" maybe old
[15:13] lina: please fix and upload by Friday
[15:14] HRbot: noted.

--- unrelated ---

doc_policy_v2.3, doc_policy_v2.4_beta, HRpolicy_draft_NEW.docx → which one to keep??
chat says "use newest", but which is that?

--- weekend dump ---

@dev_ray posted "VirtuAI HR agent not reranking properly"
someone replied "maybe too small context window, also doc embeddings mixed with 2023 data"

Summary: random confusion between policy versions, leave rules, and chatbot reliability.
